Aluminium Manufacturing & installation

We manufacture windows and doors in a variety of styles, sizes, configurations. All of these are available in natural aluminium or a range of powder coated colours, and can be fitted with standard or performance glass, to suit your requirements.

FOLDING-STACKING DOORS

Folding-stacking doors are called by various different names: Folding doors, stacking doors, folding-sliding doors, concertina doors or accordion doors! These modern innovative doors allow exceptionally large openings, bringing the outdoors in. They simultaneously slide and fold out of the way to totally open up your world!

HINGED ALUMINIUM DOORS

Hinged Aluminium doors are probably the most standard type of doors, hinged onto the door jamb either on the left or right. Hinged doors can be manufactured as single doors or double doors (french doors) with glass inserts or aluminium panelling.

CASEMENT WINDOWS | PROJECTED WINDOWS

Projected aluminium windows are also sometimes called casement windows or sash windows, and can take one of two forms – top-hung or side-hung.

Balustrades

We install different ranges of balustrades.

NORMAL STANDARD STAINLESS STEEL

Our standard steel balustrade systems are designed and approved by a professional structural engineer. Thus ensuring the safety of all that utilise the building, also adhering to the guidelines of aaamsa/ Sagga regulations.

POST TO GLASS

Our standard stainless steel post and glass balustrade systems are designed and approved by a professional structural engineer. Any glass balustrade must withstand a 400 Joule soft body impact test in order to ensure the safety of those using the building.

FRAMELESS GLASS BALUSTRADES

Our standard frameless glass balustrade systems are designed and approved by a professional structural engineer. Achieving your dream finish without the concern of safety has never been easier. We have the slots, side mounts and top mounts.

Frameless Showers

Frameless shower enclosures are custom designed & measured by highly qualified industry professionals.

Our shower configurations are seamless & practical & add visual harmony in any bathroom.

Frameless Shower Enclosures

- Frameless shower doors are custom sized to bridge shower enclosure openings.
- Privacy can be achieved by selecting a frosted glass option.
- Our professional fitment teams guarantee your total product satisfaction.

Frameless Shopfronts, Boardroom & Wine Cellars

Frameless shopfronts have grown in popularity as options for residential and commercial structures. As they offer a contemporary, open, and clean aesthetic, frameless shopfronts and associated systems are becoming more and more popular among architects.

Frameless systems are ideal for inside offices, showrooms, retail stores, and shopfronts in shopping malls. It may be utilized for both internal and external applications.

This design solution is a great option if you want to improve your customers' purchasing experience

Frameless Foldings & Sliding Doors

Frameless Foldings and Sliding Doors are Crafted with high-quality aluminium and expertly engineered, these frameless doors boasts incredible strength and durability they can be used as a primary weather barrier. Qualified installers will find this system quick and easy to install, requiring little more than an Allen key set once the frame is fitted.

But it's not just about function - Aluminium Frameless Door system features a chunkier profile than standard aluminium frameless doors, signalling its unique design and providing the wow factor and a beautiful delineated view of the outdoors.
